SEC. 26-1. SCOPE AND PURPOSE

The Purpose of these Rules is to provide for the quarantine and isolation, when necessary, of persons or animals with communicable diseases.

SEC. 26-2 DEFINITIONS

For the purpose of this Chapter these words have the following meanings:

- A. "Board" means the Scott County Board of Health.
- B. "Department" means the Iowa Department of Public Health.
- C. "Isolation" means the separation of persons or animals presumably or actually infected with a communicable disease, or that are disease carriers, for the usual period of communicability of that disease. Isolation shall be in such places, marked by placards if necessary, and under such conditions to prevent the direct or indirect conveyance of the infectious agent or contagion to susceptible individuals.
- D. "Quarantinable Disease" means any communicable disease which presents a risk of serious harm to public health and which may require isolation or quarantine to prevent its spread. The term

Quarantinable Disease includes but is not limited to cholera; diphtheria; infectious tuberculosis; plague; smallpox; yellow fever; viral hemorrhagic fevers, including Lassa, Marburg, Ebola, Crimean-Congo, South American, and others not yet isolated or named; and severe acute respiratory syndrome (SARS).

- E. "Quarantine" means the limitation of freedom of movement of persons or animals that have been exposed to a communicable disease, within specified limits marked by placards, for a period of time equal to the longest usual incubation period of the disease. The limitation of movement shall be in such manner as to prevent the spread of a communicable disease.

SEC. 26-3. GENERAL PROVISIONS

- A. Voluntary Confinement. Prior to instituting mandatory isolation or quarantine pursuant to this rule, the Board may request that an individual or group of individuals voluntarily confine themselves to a private home or other facility.
- B. Quarantine and Isolation. The Board is authorized to impose and enforce quarantine and isolation restrictions. Quarantine and isolation shall rarely be imposed by the Board. If a quarantinable disease occurs in Iowa, individuals with a suspected or active quarantinable disease and contacts to the case may be quarantined or isolated as the particular situation requires. Any quarantine or isolation imposed by the Board shall be established and enforced in accordance with this rule.
- C. The Board shall notify, consult and work cooperatively with the Iowa Department of Agriculture and Land Stewardship and the State Veterinarian Office on issues relating to isolation and quarantine of animals.

SEC. 26-4. CONDITIONS AND PRINCIPLES

The Board shall adhere to all the following conditions and principles when isolating or quarantining an individual or a group of individuals:

- A. The isolation or quarantine shall be by the least restrictive means necessary to prevent the spread of a communicable or possibly communicable disease to others and may include, but is not limited to, confinement to private homes, other private premises, or public premises.
- B. Isolated individuals shall be confined separately from quarantined individuals.

- C. The health status of isolated or quarantined individuals shall be monitored regularly to determine if the individuals require further or continued isolation or quarantine.
- D. If quarantined individuals subsequently become infected or are reasonably believed to have become infected with a communicable or possibly communicable disease, the individuals shall be promptly removed to isolation.
- E. Isolated or quarantined individuals shall be immediately released when the Board determines that the individuals pose no substantial risk of transmitting a communicable or possibly communicable disease.
- F. The needs of isolated or quarantined individuals shall be addressed in a systemic and competent fashion including, but not limited to, providing adequate food; clothing; shelter; means of communicating with those in and outside of isolation or quarantine; medication; and competent medical care.
- G. The premises used for isolation or quarantine shall be maintained in a safe and hygienic manner and shall be designed to minimize the likelihood of further transmission of infection or other harm to isolated or quarantined individuals.

The Board, in its discretion, may authorize an individual Board member or the Director of the Scott County Health Department to issue the oral order in the Board's absence. If a temporary isolation or quarantine of an individual or groups of individuals occurs through an oral order, the Board shall issue a written order as soon as is reasonably possible and in all cases within 24 hours of issuance of the oral order if continued isolation or quarantine is necessary to prevent or limit the transmission of a communicable or possibly communicable disease.

The Board may consent to immediate jurisdiction of the district court when requested by the subject or subjects of a Board order and justice so requires.
