Clinical Services Coordinator

Re: 2018 Immunization Audit Results

The results of the 2018 immunization audits are enclosed for your review.

Now that the immunization audit is completed, **every school nurse or director should review their certificates**. We urge everyone to make any necessary corrections as soon as possible. Remember that provisional certificates expire after **60 days**. It is your responsibility to ensure that the provisional certificates are converted to complete certificates of immunization prior to the end of the expiration date.

It is important to keep in mind that the immunization audit is only an indication of the overall status of immunization level in your facility. The audit is not intended to replace the school nurse, director or principal, who is responsible for ensuring that each immunization certificate complies with the Iowa Immunization Law.

The Scott County Health Department appreciates the work that everyone has done to help bring Scott County's immunization certificates into compliance with the Iowa law.

If you have any questions about your audit results please feel free to contact me at 563-326-8618 ext. 8826, Monday – Friday, 8:00 a.m. to 4:00 p.m.
